Kolej Matrikulasi Pulau Pinang

- Pure Science (Biology, Chemistry, Physics).
- CGPA: 3.46

TECHNICAL SKILLS

- Languages:** Java, PHP, HTML/CSS/JavaScript, SQL
- Frameworks/Tools:** Angular, Ionic, Docker, Word, Excel
- Databases:** MySQL
- Version Control:** Git/GitHub
- APIs:** RESTful APIs

PROJECTS & EXPERIENCE

Mobile App for Mosque Members (Ionic, Angular, Java, PHP)

- Built app with prayer times, reminders, and role-based announcements.
- Solved plugin limitations by developing custom Java plugins and integrating Google Login.
- Worked with supervisor and target users to refine features and UI.

Telegram Prayer Time Bot (Java, Telegram API, Docker)

- Developed and deployed a prayer time bot with state/language options using Docker on an Oracle Cloud server.

Event Management Web App (PHP, MySQL)

- Created admin/user system for event handling and payments via ToyyibPay.
- Implemented automated emails for registration, reminders, and certificates.
- Communicated with testers to improve usability and functionality.

Personal Mobile Projects (HTML/CSS/JS)

- Built apps including Expense Tracker, Multi-Tool App (weather, news, Reddit), and Fitness Tracker.
- Integrated APIs, responsive design, and offline-first features through independent learning.

ADDITIONAL

Languages

- Malay (native speaker)
- English (proficient writing, basic speaking)
